Re: Aeronet Global Communications Inc.'s Petition for Rulemaking to Amend The Commission's Allocation and Service Rules For the 71-76 GHz, 81-86 GHz, and 92-95 GHz Bands to Authorize Aviation Scheduled Dynamic Datalinks, RM-11824; Aeronet Global Communications Inc.'s Petition for Rulemaking to Amend The Commission's Allocation and Service Rules For the 71-76 GHz, 81-86 GHz, and 92-95 GHz Bands to Authorize Maritime Scheduled Dynamic Datalinks, RM-11825

Dear Ms. Dortch:

On May 2, 2019, Roger Sherman and the undersigned met with Aaron Goldberger, Acting Wireless & International Advisor to Chairman Pai. During the meeting, we discussed Aeronet Global Communications Inc.'s ("Aeronet") Petitions for Rulemaking in the above-captioned dockets.¹ We emphasized the benefits of Aeronet's proposed service for consumers—as well as the maritime and aviation industries—as outlined in Aeronet's petitions and described Aeronet's ongoing trial of the service on a cruise ship in Florida as an example of the burgeoning demand for high speed broadband at sea. Finally, we suggested that these benefits could be achieved with relatively minor changes to the existing rules and that interference concerns could be addressed through coordination procedures.

Please contact me if you have any questions.

Sincerely,

/s/ Samuel L. Feder

Samuel L. Feder
Counsel for Aeronet Global Communications Inc.

cc: Aaron Goldberger
